

Launch of English Department's Extensive Reading Programme

The English Department launched the Primary 1 and Primary 2 Extensive Reading Programme in February 2024. This programme is to cultivate in students a love for reading books of different genres and promote their joy in learning. Students from Primary 1 and Primary 2 were invited to come to school in the character based on the theme the level was supposed to be in.

For the first time this year, after the COVID-19 pandemic, the Primary 1 students were supposed to be in characters from the Nursery Rhymes and the Primary 2 students from Fairy Tales. It was delightful to see various nursery rhymes and fairytales characters come to alive during the 2 recesses! The Primary 1 teachers also donned in costumes as Farmers for the Theme of Nursery Rhymes. For Primary 2, the teachers donned in costumes as Fairy Tales Characters.

The teachers conducted the Extensive Reading Programme in the two levels. It was indeed a memorable moment for the Primary 1 and 2 Lasallians as they immersed themselves in the characters and learnt from their peers about the characters they were in.

There were interesting costumes made from recyclable materials, to support the sustainability movement in Singapore. Such costumes were innovative and painstakingly made and students learnt from their friends on how they created their costumes from recyclable materials.

We would like to thank parents/guardians for their support in dressing their children up, to kick off our Extensive Reading Programme. The children enjoyed themselves as they immersed themselves or learn from their peers the characters that came alive from the nursery rhymes and stories. The various colourful costumes display wowed the senior Lasallians from Primary 3 to 6 and they had requested to be part of the characters the following year.
